**CONSOLIDATED BRASS – CB IDEAL TAPWARE**

Consolidated Brass offers a wide range of tapware and accessories to complement any decor.

The simplicity and elegance of heritage tapware is recalled in the Lever design, while the opulence and love of decoration evident in Victorian and Edwardian times influences the styling of the Olde Adelaide spout.

Timeless and classic yet contemporary, the CB Ideal mixer has clean lines and an elegant

profile, with subtlety in the detailing of outlet and indicator.

Olde Adelaide and CB Ideal outlets are WELS compliant – as are all other Consolidated Brass ranges.

Consolidated Brass tapware is designed and manufactured in Australia to suit Australian conditions and Australian tastes – variations in product detail to suit particular situations are easily and speedily achieved.
